

QObject

QGraphicsItem

point

```
graph BT; point --> QObject; point --> QGraphicsItem;
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'point'. Two arrows originate from the top of the 'point' box and point upwards to the bottom of two boxes above it: 'QObject' on the left and 'QGraphicsItem' on the right. This indicates that 'point' is a base class for both 'QObject' and 'QGraphicsItem'.
